*FOR IMMEDIATE RELEASE*

### **NOTICE REGARDING WATER LINE FLUSHING**

During the period between December 12, 2016 and December 16, 2016, the City of Fort Bragg Public Works Crew will be flushing water lines. This will take place in various streets throughout the City. Some lines will be flushed during the normal work day, and some will be done at night.

Lines are flushed to clean and maintain the quality of the water lines, to inspect fire hydrants, and to maintain water pressure.

When crews are flushing, you may experience a slight discoloration of the water in your household. Please be advised that despite possible discoloration- your water will remain safe to drink.

If you experience discoloration of your water, you are advised to run COLD water from your tap for a couple minutes or until the water runs clear.

Questions regarding this information should be directed to Heath Daniels, Lead Water Treatment Operator at (707)-813-8031.
