*FOR IMMEDIATE RELEASE*

### **CHESTNUT STREET CORRIDOR PROJECT UPDATE**

Construction on the Chestnut Street Corridor Project is well underway. Construction has been taking place next to the three school sites on Chestnut Street during the winter break to minimize impacts when school is in session. Demolition has been taking place along with forming and pouring concrete. However, there is still some work remaining to be done next to and near the schools. We would like to encourage people to take alternate routes around the construction zone, when possible, in order to speed construction along, minimize potential wait times while traveling in this area, and keep the areas around the schools safe for the children.

Work hours are Monday through Friday between the hours of 7:30 a.m. and 6:00 p.m. We apologize in advance for any inconvenience this may cause and appreciate the patience of residents on Chestnut Street and others travelling along the corridor.

A Facebook page has been established to provide updates and responses to questions and concerns called "Chestnut Street Corridor."

Questions regarding this information should be directed to Mr. Jason Island, Project Manager, at (707)-489-8105.
