

When you're rinsing your paintbrush  
in the driveway,

remember you're not *just* rinsing it in the driveway...

Rain washes paint and other household chemicals into storm drains, which lead straight to our streams, local waterbodies, and the ocean.

---

## KEEP TOXICS AWAY FROM OUR WATERWAYS!

Toxic chemicals in household products pollute our waterways, and harm fish and wildlife.

Rinse paintbrushes in a sink, and never dump household chemicals such as paint, cleaners, and pesticides on the ground, driveway, or street.

Brought to you by the North Coast Stormwater Coalition
