## HOMETOWN SHOPPER

(707) 467-9111

### The California State Licensing Board advises the following when hiring a Contractor:

- Watch your down payment. The legal limit for a down payment is 10 percent of the contract price or \$1,000, whichever is lower.
- You should always get three bids from licensed contractors before hiring anyone to perform home improvement work.
- Homeowners can use CSLB's "Find My Licensed Contractor" feature to build and download a list of qualified licensed contractors in their area.
- In California, it's illegal for an unlicensed person to bid for or perform any home improvement valued at \$500 or more in combined labor and material costs. Furthermore, there must be a written contract for all home improvement projects over \$500 in combined labor and materials costs. The contract should include: a specific description of work to be done, materials to be used, total cost of the project, start and completion dates, when payments will be made, and who will be responsible for getting building permits. The contract must also identify the contractor, and give his/her address and license number. A good contract should also identify warnings and notices about the right to cancel, mechanics liens, and allowable delays.
- In addition to being licensed with the State Board, Homeowners should also verify that the contractor has workers' compensation insurance, without it, a homeowner may be liable for medical bills if someone gets hurt on their property. If the contractor wasn't licensed to do the work, the homeowner's insurance policy might not apply.
- For more tips and information on how to hire a contractor and what to expect in a contract, visit the California State Licensing Board website at: [https://www.cslb.ca.gov/Consumers/Hire\\_A\\_Contractor/](https://www.cslb.ca.gov/Consumers/Hire_A_Contractor/)

Listings of contractor licenses and phone numbers were furnished to us by the California Contractors State License Board. All contractors licenses were currently active as of May 1, 2023.

A Contractor could have been omitted from this list simply for being late on payments or filings for their renewal, so it is recommended to check the California State License Board website (<https://www2.cslb.ca.gov>) or call 1(800)321-CSLB for current license status.

# LAKE COUNTY BEAUTIFICATION

## PROJECT OVERVIEW

The County of Lake is pleased to announce the Lake County Beautification Initiative!

Lake County is home to over 68,000 people. It is also home to over 30 County parks, 100 miles of shoreline for fishing and over 100 miles of hiking trails with the most stunning views. Lake County is rich in history and culture with a history of human habitation dating back over 20,000 years.

We intend to reduce the amount of waste and debris by providing trash/recycling receptacles and anti-litter community pride signage. We will enhance, rehabilitate and restore our parks with trees for shade, shade structures, water bottle filling stations, and add two much needed restrooms to existing parks. Public art will incorporate a connection to the local Native American culture and history of the area and will be installed on buildings that are the most prominent to the roadways, along with camera equipment on our repeat illegal dumping sites. By making these improvements we will enhance public health and safety, community connections, and places for walking and outdoor recreation.

In April of 2023 and again in the spring of 2024 the ECOHERO performers will conduct school assemblies to educate students and empower them to be heroes by not littering and how reducing, reusing and recycling has positive effects in our world! We will promote Clean California and the Lake County Beautification Initiative through local radio, social media, print and on-line advertising.
